I would like to take this opportunity to encourage you to support water efficient product labeling. As the Water Conservation Specialist for the Southeastern CO Water Conservancy District and as a board member of the Colorado Water Wise Council I feel a significant water savings can be achieved by implementing this program. It will assist consumers in identifying and understanding the advantages of water efficient products. It will also motivate manufacturers to produce efficient products. The labeling program can also encourage and assist distributors, retailers and water utilities to promote water efficient products.

Thank you.
